

Credit Card Processing via DOLLARS ON THE NET by Shift4

Credit cards are processed directly through the system rather than with a separate credit card terminal.

Telephone Activation (PBX)

Shuts the telephone off or turns it on based on guest's guarantee method and in-house status. Also displays the guest's room number and name on the console when guest calls the front desk.

Back Office Accounting Export

Hotels can export their financial data from the system to a back office accounting program.

Miscellaneous

- HOMI Mini Bar

Energy Use Management

Allows the hotel to control and monitor the electricity being used throughout the hotel. Automates the electricity in guest rooms, public areas and meeting rooms.

- Ambimate
- Inncom
- Scientific Control Systems

Electronic Locks

Communicates guest's room number and arrival/departure dates to your hotel's room key system.
